

Volunteers sought for local Covid vaccination centre

The vaccination of over 80s in our area will start in early January at Chesham Town Hall.

We have been asked if we can find local people who would volunteer in one of two roles, both of which will be outside the venue:

- Marshalling and directing people in the car park area
- Standing outside at the entry doors asking a few questions

It is expected that volunteers will be asked to take on one of 3 shifts of 3-4 hours between 9am and 7pm.

Whilst this is in no way an absolute commitment but rather an indication of willingness to help, if you are interested, could you please reply with your **name** and either **phone/mobile number and email**

You will be contacted to check your suitability and availability as needed and there will be plenty of opportunities throughout the vaccination programme.

This information will be passed on to the Clinical Commissioning Group [and the Primary Care Network] and will be held by them solely for the purposes of arranging volunteer help for the Covid vaccination programme.

Please send your details to: volunteers@patientparticipationgroup.co.uk
